Subject: Passaic public meetings

We will discuss later in the week a whole host of issues but I wanted to get the ball rolling on suggestions for meeting dates and venues, all of which have to be locked in by January 30:

Meeting 1 in Newark on Feb 20/25/26/27

Meeting 2 in ??? on March 4/5/13

Meeting 3 in ??? on March 19/20

February 20 and March 13 are scheduled CAG meeting dates. Does it make sense to have a public meeting in lieu of a CAG meeting on either the February 20 or March 13 dates? If yes, would the best venue be in Newark for that meeting? The Newark venue would have to be larger than most of our past venues. Newark East Side High School? We held a meeting in the auditorium years ago....thoughts?

thanks

Subject: Followup from CAG meeting

Hi all,

As we discussed last night, the CAG would be very appreciate to obtain for the following input on their list of outreach and technical issues:

David, let us know where EPA would like support from the CAG and which activities the CAG is suggesting might make most sense for the CAG to do directly. Also review the list of fact sheets and let us know which ones EPA has or will be preparing.

Alice, can you look over the list of technical issues and perhaps group them into two or three categories such as 1) will be fully addressed in the FFS/PP, 2) will be addressed in the FFS/PP to some degree but perhaps not to the detail desired by the CAG, 3) will not be addressed in the FFS/PP to any real degree.

Also David, we had discussed working with EPA's EJ office to help with an EJ analysis, what do we need to do to help move that process along?

thanks

Doug
